

I don't have a problem with ads on my Internet Explorer. When they pop up, if they are not what I am looking for, I delete it.

WHAT DOES BOTHER ME ARE THESE ADS THAT I CAN'T ERASE FROM MY AD CACHE. I CAN NOT BELIEVE THAT THE FCC SAYS IT'S OK FOR THESE COMPANIES TO SEND ME ADVERTISING THAT I CAN NOT ERASE FROM MY HARD DRIVE. WHEN I TRY TO ERASE THEM FROM THE RECYCLE BIN, THEY HAVE CODE WRITTEN IN SO THEY RESTORE BACK INSTEAD OF DELETING! IF THE FCC DOESN'T DO ANYTHING ABOUT THIS, THEN I GUESS I WILL HAVE TO DO YOUR JOB FOR YOU!
